ULTFARMS

We Resume at 12:55

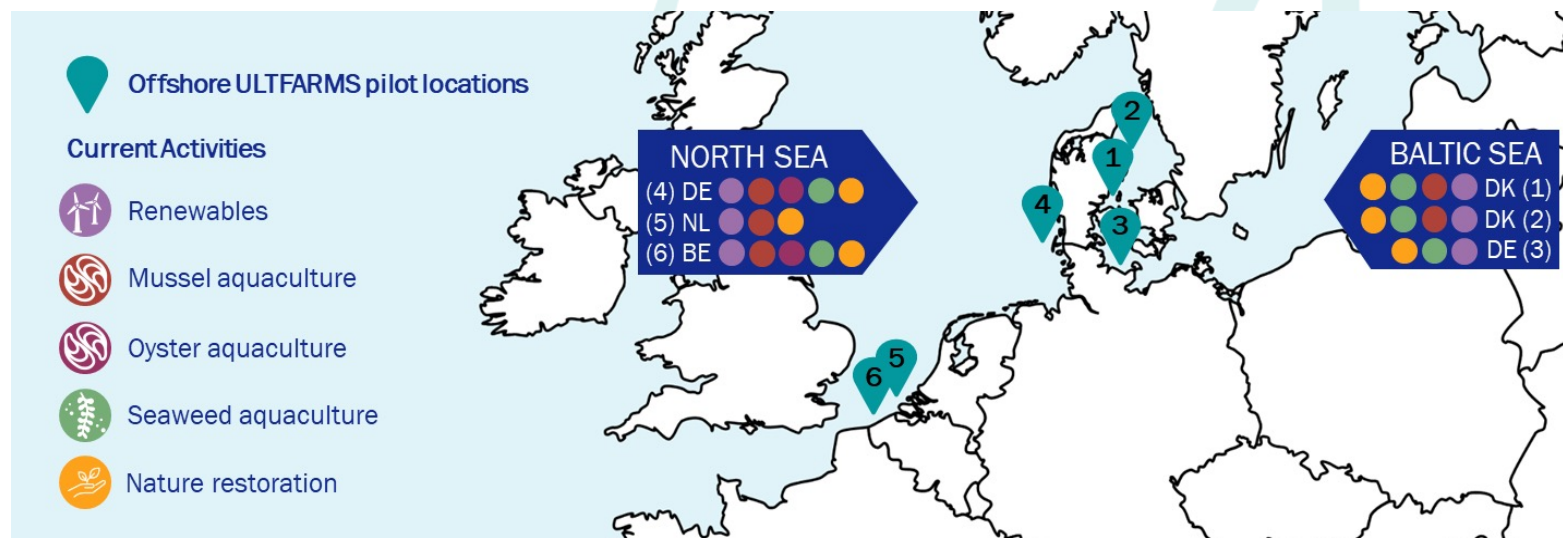

This project has received funding from the European Union's Horizon Europe research and innovation programme under Grant Agreement No 101093888. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union. Neither the European Union nor the granting authority can be held responsible for them.

# ULTFARMS PROJECT

## Circular Low Trophic Offshore Aquaculture in Wind Farms and Restoration of Marine Space

- To **exploit project results**, paving the way for further commercialization and ensuring **swift market penetration** of the **LTA cultivation in windfarms and use of products**
- To sustain **biodiversity** and to provide **suitable habitats** for fish and other biota through the inclusion of **nature restoration efforts**
- To ensure **replicability, transferability, training and capacity** building in other basins supported by a roadmap of **guidance for solution roll-out**

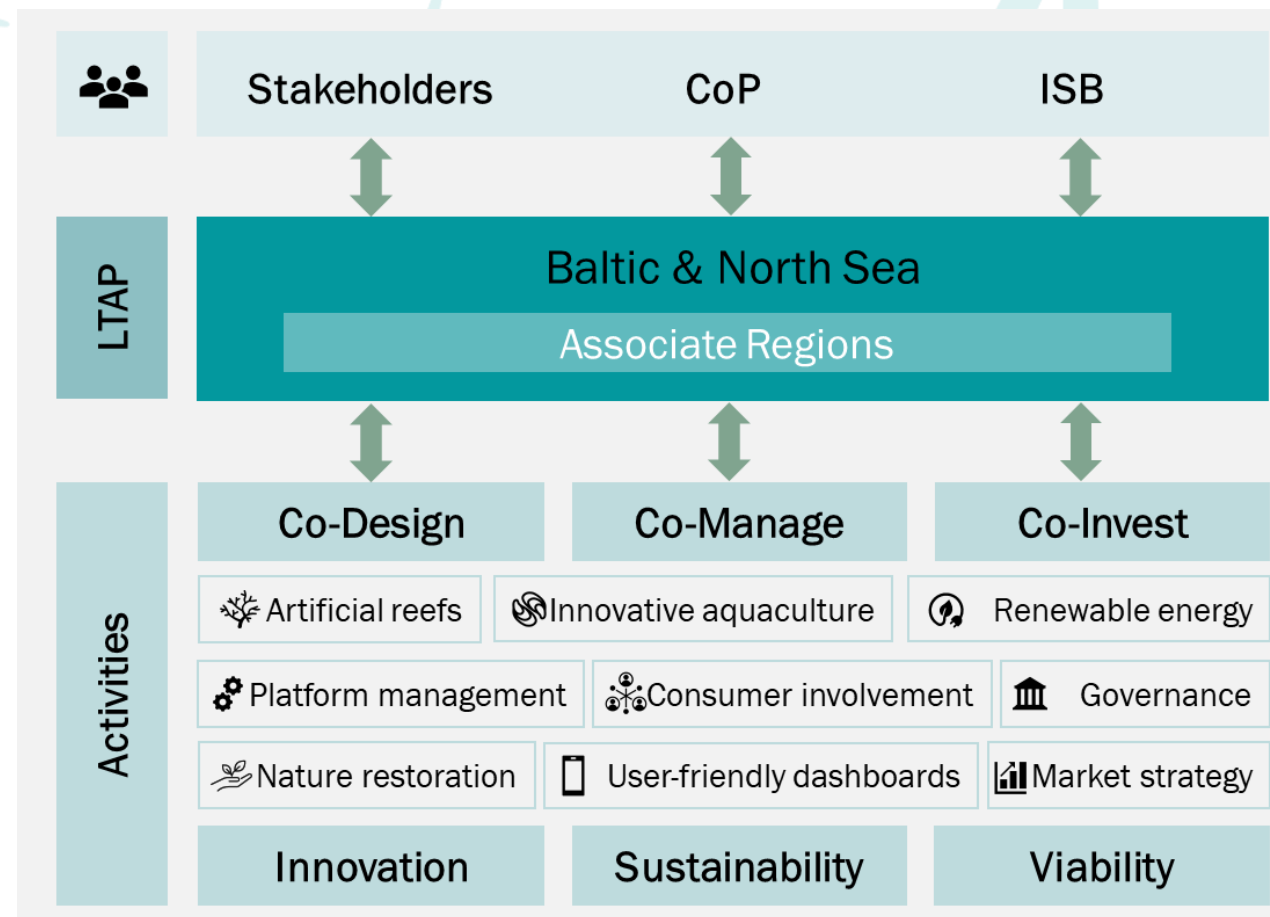

This project has received funding from the European Union's Horizon Europe research and innovation programme under Grant Agreement No 101093888. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union. Neither the European Union nor the granting authority can be held responsible for them.

# ULTFARMS PROJECT

- Enhance **solutions to LTA farming** in combined space with **OWF for an optimal use of marine space** and synchronized offshore activities in compliance with spatial planning targets and to **demonstrate offshore LTA systems in OWF**
- To implement **efficient and cost-effective monitoring strategies** for aquaculture industry within **unified LTA systems**
- To ensure the share of **renewable energy consumption along the full value chain** of aquaculture

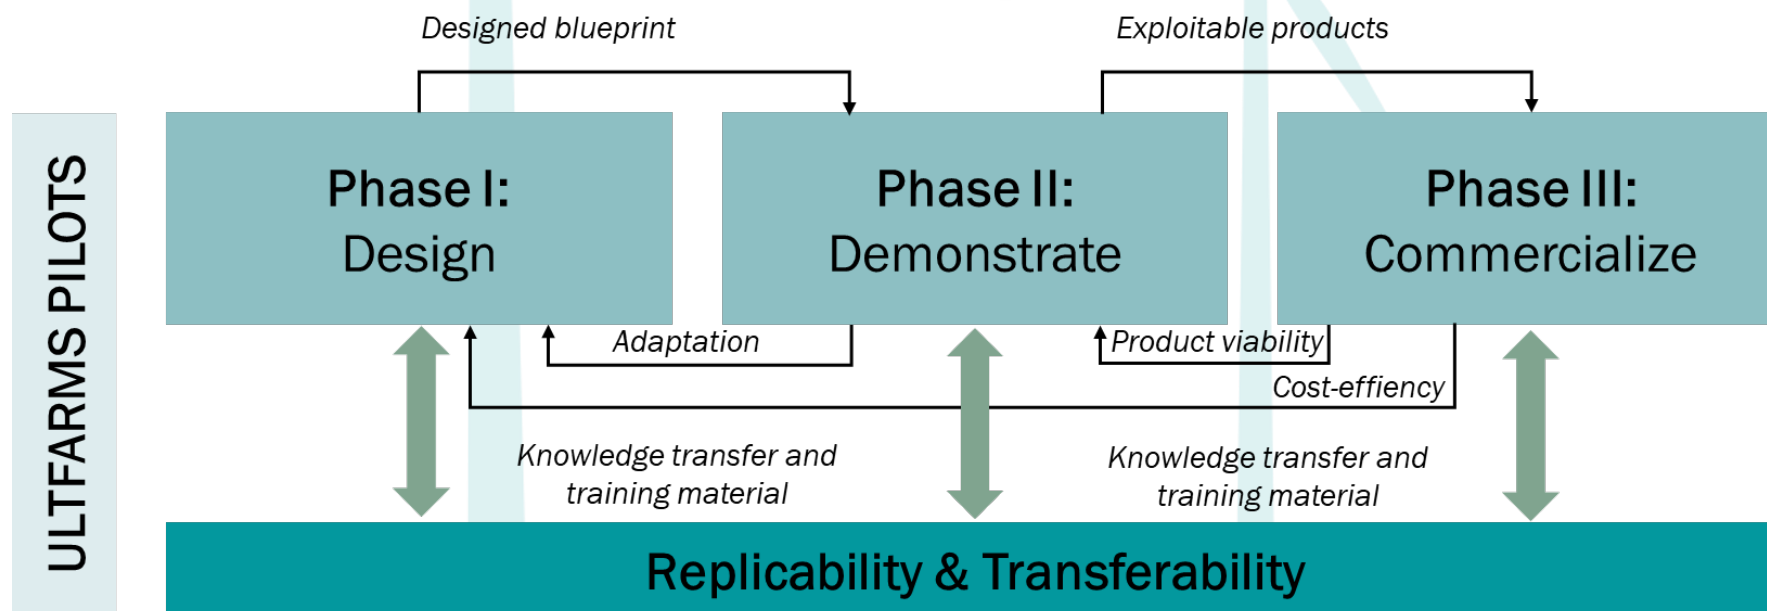

This project has received funding from the European Union's Horizon Europe research and innovation programme under Grant Agreement No 101093888. # ASSOCIATE REGIONS

## Call Opening via EU Calls Page Autumn 2023

- To be promoted via ULTFARMS channels – Keep an eye out if interested!

## Associate Regions

- Regional Authorities whom would like to develop similar initiatives and efforts as those taking place in ULTFARMS including:
  - Replicating solutions in new locales
  - Sharing information, expertise, trainings, etc.
  - Suitability studies and baseline developments
  - Developing or joining local & regional communities of practice
  - Full scope via the call and not limited to listed actions / activities

This project has received funding from the European Union's Horizon Europe research and innovation programme under Grant Agreement No 101093888. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union. Neither the European Union nor the granting authority can be held responsible for them.

# INDUSTRY SOUNDING BOARD

## OBJECTIVES:

Bringing together specialists from sectors pivotal to the project

- Industry-Relevant Guidance: Ensuring project activities align with market demands and trends.
- Market Insights and Validation: Providing critical insights for strategy refinement and approach validation.
- Networking and Collaboration: Facilitating knowledge exchange and potential partnerships.

This project has received funding from the European Union's Horizon Europe research and innovation programme under Grant Agreement No 101093888. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union. Neither the European Union nor the granting authority can be held responsible for them.

# INDUSTRY SOUNDING BOARD

## Current Membership

### Mussel Farming

Addy Risseeuw (Producer Organisation of Mussels Growers)

### Seaweed Farming

Harald Sveier (Lerøy Seafood & Ocean Forest)

### Oyster Farming/Restoration

Merel den Held (The Rich North Sea)

### Offshore Wind Farm Industry

Mattia Ceccinato (Wind Europe)

This project has received funding from the European Union's Horizon Europe research and innovation programme under Grant Agreement No 101093888. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union. Neither the European Union nor the granting authority can be held responsible for them.
