

FIRST UNITED WEBINAR

“Challenges, risks and barriers for large scale commercial roll-out of multi-use”

3 June 12.00 – 14.00h CEST

The first UNITED webinar aims to introduce the project to the wider audience and start the discussion about the topic of multi-use. The attendees will get the opportunity to hear about the ongoing project activities, aims for the pilots, involved partners and upcoming engagement opportunities. This will also be an opportunity to verify some of the initial project results through an interactive live poll session. The UNITED sister project MUSICA: Multiple-use-of Space for Island Clean Autonomy will also be presented at the webinar.

Length of the webinar: 2 hours

Format: Presentations by project partners and selected invited speakers, interaction moderated via sli.do

Expected number of participants: 150

Conferencing system: GoToMeeting/Webinar

AGENDA	
12.00 - 12.05	Introduction to the webinar Moderator: Ivana Lukic, SUBMARINER Network for Blue Growth
